# Inflam-Away™

Hi-Potency Enzyme Formula

**Inflam-Away™**, which is a special combination of enzymes, anti-oxidants and nutrients, was designed to be an extremely effective aid when taken in significant amounts between meals (on an empty stomach), for chronic and acute inflammation. The special combination of enzymes helps eliminate the foreign matter that causes inflammation.

Inflammation is the body's own natural method of eliminating or reducing the stress from physical, chemical or metabolic imbalances resulting in tissue damage. Inflammation includes swelling, loss of fluid, edema, allergies and tissue damage.

In a healthy person, the inflammatory process rids the body of this damaged tissue. When various biological systems, including the immune system, are deficient, however, a chronic inflammatory process can result. To speed up recovery, ingestion of properly combined enzymes and anti-oxidants are most helpful.

## formula benefits

**Nutritional research has shown this formula to be beneficial for:**

1. Sports injuries
2. Swelling
3. Muscle aches & pains, strains & sprains
4. Other-exhaustion
5. Certain arthritis & bursitis conditions
6. Serious degenerative situation

**Heart Disease:** About 400, 000 Americans each year die from heart disease usually caused by plaque buildup on the arteries eventually cutting off the blood supply to the heart. A major contributing factor to this plaque buildup is inflammation of the blood vessels. This inflammation can be determined by the amount of C-reactive protein in the blood. The higher the concentration the greater the risk of a heart attack and stroke. Clinical research with enzymes, as in INFLAM-AWAY™, have been shown effective in decreasing inflammation of the blood vessels resulting in a reduction of C-reactive protein, thereby reducing the risk of heart attack and stroke.

A major benefit of using natural enzymes is the avoidance of the dangerous side effects caused by such drugs as aspirin, ibuprofen, Pravastatin, Lipitor, and other anti-inflammatory drugs.

**Ingredients:** Zinc, Pancreatin, Bromelain, Trypsin, Papain, Chymotrypsin, Amylase, Lipase, Rutin, L-Cysteine, Superoxide Dimustase, Catalase

**Suggested Use:** 3 to 6 tablets 3 times a day 1 hour before meals for inflammation, or as directed by a physician.
